

# Theme

*Creating meaning for Artworks*

# Landscape

- ~ Apart from artworks about people, the most popular art form is landscapes. These include views of mountains, waterways, trees, cliffs, desert, hills and the countryside, as well as views of the sea and the seashore (seascapes) and cities (cityscapes). Although there are various traditional ways of showing the land, sea and city, many artists have also made very imaginative interpretations using unusual colours and some very interesting viewpoints.

# J. M. W Turner

~ Venice, looking across the lagoon, 1840, Watercolour, 244 x 304cm, Tate Gallery, London
