

Who got 5 objects?

Who got 10 objects?

Who got 15 objects?

Who got 20 objects?

Who got 25 objects?

Who got 30 objects?

How varied were your ideas?

Did you build ideas from other ideas?

What were some of your ideas?

Did you combine circles?

What is the purpose of the 30 Circle Challenge?

It is a divergent thinking activity and students of all age ranges can respond to this challenge. It is a good tool for measuring where participants are at in their creative thinking journey.

Participants are given the opportunity to generate many ideas, with flexibility to generate different kinds of ideas, create original ideas and elaborate with the ability to add extra detail or extend ideas.

Google the 30 circles challenge or test you will find more information from various sites and blogs.
